

The Legends Group is proud to Partner with CRS!

SALES TEAM (10) - [info@legends-group.com](mailto:info@legends-group.com) - 888-912-6045

**With thousands of Baby Boomers moving into apartments each day**, and Millennials increasingly choosing apartments over single-family homes, new apartment buildings are popping up rapidly. If your multi-family investment is on the older side, you will likely lose out to these fresh and modern apartments. You cannot change the age of your building, but you can definitely shrink the gap in your competition. New flooring and paint throughout are great places to start.

But to increase your ROI further, choose to renovate your rental property's best investment, **its kitchen and bathroom(s)**! Conveniently, our leading-edge, cabinet re-facing service is an incredible option for investors who want to upgrade their property's pre-existing cabinets. **Especially those who have strict budgets and not a lot of time.**

Our cabinet upgrades are focused on **modern cabinet re-facing rather** than replacing the structure.

This technique **could save you thousands of dollars** and weeks in your renovation's schedule. Please keep in mind, we have 3 different options to meet your needs (Full Upgrade, Hang Only, and Drop Off).

**The cabinet re-facing program of CRS** turns an eyesore into an eye-catching, profit-making asset; and with 23 years of business experience, CRS offers a huge selection of **affordable cabinet doors and drawer fronts**. Our scratch-resistant RTF (Rigid Thermal Foil) surface gives you the look of paint or wood without the hassle and cost of repainting every few years.

As you can see below, CRS has a simple **3-step process**:

- 1) **REMOVE** all the old doors and hardware
- 2) **RESURFACE** existing cabinet surfaces with quality veneer
- 3) **REFACE** the old doors with new doors and drawer fronts, new hinges, and new handles

**Time Frame:**

- Cabinet doors will be available for installation within 2 to 3 weeks of order being placed.
- Installation will be completed within 3 weeks of cabinet doors being received from the manufacturer.
- **Overall completion of the new cabinet doors and refacing will be within 5 to 6 weeks of a signed proposal between the client and CRS.**

**Contact us to learn how CRS can help you with your next renovation project!**

We would love the opportunity to walk/measure your property's floor plans for a free and accurate quote. We look forward in showcasing what CRS can provide for you.

All the best,

CRS – Sales Team (10)
